Skills

Soft Skills

- Problem Solving
- Teamwork
- Adaptability
- Communication
- Time Management
- Continuous Learning

Education

2023/2024 - Present

Mekelle Institute of Technology

Information Technology Student
Focus on Software Development

About Me

Hello! I'm Araya Haftu, a 23-year-old IT student at Mekelle Institute of Technology with a passion for both technology and nature. I believe coding should be as organic as nature itself – clean, efficient, and sustainable. My approach to development is rooted in patience and continuous growth, much like tending to a garden. When I'm not coding, you'll find me exploring the outdoors, drawing inspiration from natural patterns and systems.

Projects

Eco Tracker App

A nature-inspired application to track environmental impact and promote sustainability.

- Python
- Django
- React

Forest Visualization

Interactive data visualization of forest growth patterns using JavaScript and D3.js.

- JavaScript
- D3.js
- CSS

Water Conservation Tool

Web application to calculate and optimize water usage in agricultural settings.

- Python
- Flask
- PostgreSQL

Self-Learning Journey

Currently expanding my knowledge through online courses and resources:

Python Development

- Advanced Python concepts
- Web scraping
- Data analysis
- Flask & Django

Frontend Development

- Modern JavaScript
- React.js framework
- CSS animations
- Responsive design

Database Systems

- SQL & NoSQL
- Database design
- MongoDB
- PostgreSQL
